Eu.SAT.10	Info	<p>Publisher: EULYNX Initiative</p> <p>A full list of the EULYNX Partners can be found on https://eulynx.eu/</p>																
Eu.SAT.12	Info	<p>Responsible for this document: EULYNX Project Management Office www.eulynx.eu</p>																
Eu.SAT.308	Info	<p>Copyright EULYNX Partners</p> <p>All information included or disclosed in this document is licensed under the European Union Public Licence EUPL, Version 1.2 or later.</p>																
Eu.SAT.13	Head	1.3 Purpose																
Eu.SAT.14	Info	<p>The purpose of the document is to define the signal aspects, and allocate codes to the signal aspects, which are used as values in the telegrams of SCI interfaces. This document is intended to be used for the provision of the aspect coding in the relevant payloads in the Interface specifications for those SCI interfaces, which transmit signal aspect information.</p>																
Eu.SAT.15	Info	<p>This document list the signal aspects of all participating infrastructure managers. This table is used as translation between the coding used in the telegrams and the actual signal aspects of the individual infrastructure manager.</p>																
Eu.SAT.31	Head	1.4 Applicable documents																
Eu.SAT.32	Info	<p>The current versions of documents used as input or related to this document are listed in the EULYNX Documentation Plan [Eu.Doc.11]. The relationships between the documents are displayed in the Appendix A1 Documentation plan and structure [Eu.Doc.11_A1].</p>																
Eu.SAT.62	Head	1.5 Terms and abbreviations																
Eu.SAT.63	Info	<p>The terms and abbreviations are listed in the EULYNX Glossary [Eu.Doc.9].</p>																
Eu.SAT.98	Head	1.6 Variability management																
Eu.SAT.99	Info	<p>Applicable aspects to each IM are listed under the column of each IM with the national aspect name or abbreviation. If an aspect is not applicable to the IM, it is marked as " - ".</p>																
Eu.SAT.3	Head	2 List of signal aspects
